

PRO-10 Wire Cable Tray

Wiremaid U.S.A. has just created the "Cable Tray Maker," an easy-to-use cable tray designer that takes the guess work out of ordering a cable tray system. Click on a cable tray part, choose your options and add the quantity. It creates a bill of materials that you can print or email.

- Requires NO bending or cutting; ready-made 4-way, "T" and "L" shaped junctions

- Acts as a continuous ground conductor; no grounding splices

- Adapts to difficult architectural designs to accommodate changes in direction and elevation of cable runs

- Cuts installation time up to 50 percent

- Provides strength, rigidity without additional hardware; has smooth edges

- Manufactured in an array of protective, powder-coated, colored finishes to minimize corrosion

- Featured in light or heavy duty product styles

- All support hardware available

- Powder coating is standard finish

- Custom sizes available
